NEBOSH

HSE Certificate in Process Safety Management (PSM)

10 - 14 /12 /2018

Bucharest, Romania

NEBOSH and Health and Safety Executive (HSE), the UK's Health and Safety Regulator, developed this Process Safety Management (PSM) qualification taking the knowledge of best practices applied widely for process industries such as oil and gas, refinery, chemicals, plastics, pharmaceuticals and food etc.

This qualification is a blend of engineering and management skills to provide process safety knowledge and understanding of recognised industrial practices to managers, supervisors and safety professionals to allow them to manage their process safety responsibilities to prevent catastrophic accidents and near misses associated with loss of containment of energy or dangerous substances such as chemicals and hydrocarbons.

What kind of people takes the NEBOSH HSE Certificate in Process Safety Management (PSM)?

Those who have the responsibility for ensuring safety as part of their day to day duties, including:

- Managers;
- Supervisors;
- Safety Professionals

The NEBOSH **HSE Certificate in Process Safety Management (PSM)** covers the principles of process safety management applied widely in vast variety of process industries. The syllabus takes a risk management approach based on best practice and international industry standards.

What does the course covers?

The NEBOSH HSE Certificate in Process Safety Management is designed to cover a range of issues affecting process industries.

Topics include:

- Establishment of process management systems
- Asset management and maintenance strategies
- Safe start-up and shutdown of process plant
- Performance standards for safety critical systems and equipment
- Hazards and controls for:
 - Chemical reactions
 - Bulk storage of dangerous substances
 - Fire and explosion
- Purpose and features of emergency plans

What are the benefits for the organization?

This qualification has been developed specifically for process industries. It gives holders a sound breadth of knowledge that will help their employers to ensure that their process safety risks are being managed effectively. This benefits employers by:

A safer workplace – The NEBOSH HSE Certificate in Process Safety Management is all about keeping people safe from injury and loss of life. For employers this also means protecting valuable assets and avoiding prosecution, litigation and loss of reputation.

Assurance – An employer whose workers are NEBOSH qualified is an employer committed to process safety management.

The NEBOSH HSE Certificate in Process Safety Management can help employers achieve international standards and can even help win new business.

Return on investment – A worker with the NEBOSH HSE Certificate in Process Safety Management has practical knowledge that brings real value, wherever they operate.

How long does it take?

The course lasts 4 days, from 10th to 13th of December, from 09:00 to 17:00.

Exam day: the 14th of December.

What kind of people take the NEBOSH HSE Certificate in Process Safety Management (PSM)?

People from all around the world who work in process industries such as oil and gas, chemicals, plastics and pharmaceuticals.

Ideal for managers, safety representatives and health and safety, advisors working within the process industries, both inside and outside the UK.

It is not designed for chemical and process safety engineers experienced in the specification, design and maintenance of process plant.

It is recommended that students should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

Candidates are assessed by a 90 minute multiple choice examination. A qualification parchment will be sent to students on successful completion.

The participants' number does not exceed the 15 individuals, to optimize interaction. Minimum standard of English required for candidates.

The standard of English required by candidates studying the NEBOSH HSE Certificate in Process Safety Management (PSM) must be such that they can both understand and articulate the concepts contained in the syllabus. It is important to stress that the onus is on accredited course providers to determine their candidates' standards of proficiency in English.

How much does it cost?

| | |
|------------|-----------|
| NEBOSH PSM | 1100,00 € |
|------------|-----------|

The fees above do not include VAT at 19%.

Fee includes: attendance, course books, course notes, lunch, breaks and examination registration fees.

Special prices for our active clients and for more than two participants per company.

Accommodation: Ask for details.
