

IOSH - Managing Safely

IOSH Managing Safely is an internationally recognized HSE course with over 241,000 participants worldwide

It is an interactive and practical program with step-by-step guidance and immediate applicability

Benefits of participating

- Internationally recognized diploma
- Quality guaranteed by the British quality control system, provided by the department of occupational health and safety specialists.
- Flexibility - the program can be adapted to the particularities of the field from which the students come from.
- It covers two areas of interest: Occupational Health and Safety and Environmental Protection - in a word HSE.

Who can participate?

The course is addressed to managers and supervisors in any field of activity and is designed to provide a practical and operational approach with the purpose of improving the safety and security at work for all employees.

Advantages

The course will provide participants with the needed knowledge and tools to manage the situations under their responsibility. Also, the reasons for which Safety and Health at work are indispensable in any service and in any field of activity will be highlighted.

Includes

- Animated Power Point presentation, easy to follow, with a good informative impact;
- Additional advice and comments provided by the trainer;
- Exercises and tests designed to provide a more realistic picture of HSE;
- Risk assessment exercises for a better understanding of the mechanism of accidents and how to prevent them.

Topics

- Introduction to Managing Safely
- Legislative, cultural and business framework
- Risk assessment
- Risk control measures
- Understanding responsibilities
- Identifying risks
- Performance measurement
- Effective security programs - Optimizing managerial performance
- Environmental protection

Examination

- Written exam
- Project

To complete the course it is necessary to pass both tests.
