NEBOSH

International Technical Certificate in Oil and Gas Operational Safety

11- 18 /12 /2017

Bucharest, Romania

This qualification is designed specifically for those with safety responsibilities in the oil and gas industry. It is the latest addition to our portfolio of globally-recognized health, safety, environmental and risk management qualifications.

The qualification focuses on international standards and management systems, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore. The Certificate also highlights the importance of process safety management in the oil and gas industry.

What kind of people takes the NEBOSH International Technical Certificate in Oil and Gas Operational Safety?

Those who have the responsibility for ensuring safety as part of their day to day duties, including:

- Managers;
- Supervisors;
- Employee representatives;
- Newly appointed Health and Safety Advisers.

Students should already have an underpinning knowledge of safety issues and may already have studied one of NEBOSH's Certificate-level qualifications.

The NEBOSH Technical Certificate in Oil and Gas Operational Safety covers the principles of process safety management in the oil and gas industries. The syllabus takes a risk management approach based on best practice and international industry standards.
